

HPE Networking Comware Router Series MSR3000

HPE Networking Comware Router MSR3026 (R9J03A)

What's new

- Enhances security with built-in IPS and stateful firewall, with optional HPE IPS filter subscription.
- New Serial, GbE and Gig-T SIC modules increase configuration flexibility.
- High-density voice modules and channelized POS access to cover.
- Additional features such as ADVPN and hierarchical QoS.

Overview

The HPE Networking Comware Router Series MSR3000 feature a modular design that delivers unmatched application services for medium to large branch offices. These routers offer Gigabit switching, provide an enhanced PCI bus, ship with the Comware v7 OS, provide a full-featured resilient routing platform including IPv6 and MPLS, offer up to 13 Mpps forwarding capacity and 14.3 Gb/s of IPSec VPN encrypted throughput to ensure high performance with concurrent services.

With the Open Application Platform module, the HPE Networking Comware Router Series MSR3000 offers a wide range of virtualized applications. Its distributed architecture and high reliability also strengthen the resiliency of medium to large branches.

The MSR3000 series provides an agile, flexible network infrastructure that enables you to quickly adapt to changing business requirements while

delivering integrated concurrent services on a single, easy-to-manage platform.

Features

Reduces Complexity and Simplifies Your Network

The HPE Networking Comware Router Series MSR3000 simplifies your network through integrated routing, switching, security, and voice, and combines the flexibility of modular upgrades to deliver high-performance medium-to-large branch routing.

Makes administration easier with HPE Networking Intelligent Management Center (IMC) Software.

Reduces management complexity with zero-touch deployment (ZTP) and Dynamic VPN.

Enhances Time to Service and Branch Performance

The HPE Networking Comware Router Series MSR3000 offers high performance routing with up to 13 Mpps forwarding and 14.3 Gbps of IPSec encryption throughput to meet bandwidth requirements of branch traffic.

Supports branch services with a comprehensive feature set and eases the cloud transition with integrated security.

Satisfies medium to large branches with advanced hardware architecture and high port density.

Increases Your Return on Investment

The HPE Networking Comware Router Series MSR3000 is a modular platform with a wide range of connectivity options that enables the right design for your needs.

Reduces your TCO through open standards, power and space savings, and energy-efficient hardware.

Deploy advanced features with no additional licensing.

Boosts Agility and Resiliency

The HPE Networking Comware Router Series MSR3000 provides Open Application Platform module that supports HPE Alliance One applications such as WAN acceleration and Microsoft Skype for Business (Lync).

Delivers an open standards approach to your network infrastructure.

With advanced hardware architecture and FPBA modules, you get reliable, high-performance functionality with multi-core processors.

Technical specifications**HPE Networking Comware Router MSR3026**

Product Number	R9J03A
Differentiator	Multi-service router for use in select HPE products.
Ports	2 HMIM slots 4 SIC slots 8 RJ-45 10/100/1000 WAN ports 8 RJ-45 10/100/1000 LAN ports 6 fixed 10GE SFP+ ports
Throughput	up to 8 Mpps
Routing table size	500000 entries (IPv4) 500000 entries (IPv6)
Wireless capability	3G, 4G LTE, 4G Depending on options and configuration
Input voltage	100-120/200-240 VAC
Power consumption	100 W (maximum)
Heat dissipation	168 BTU/hr (177.24 kJ/hr)
Product dimensions	4.3 x 43.9 x 4.7 cm
Weight	5.9 kg

HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

Consulting services

Experts can help you map out your path to hybrid cloud and optimize your operations.

Managed services

HPE runs your IT operations, giving you unified control, so can focus on innovation.

Operational services

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

- HPE Complete Care Service: a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.
- HPE Tech Care Service: the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.

Lifecycle Services

Address your specific IT deployment project needs with tailored project management and deployment services.

HPE Education Services

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options.

The Defective Media Retention (DMR) service feature option applies only to Disk or eligible SSD/Flash Drives replaced by Hewlett Packard Enterprise due to malfunction. Comprehensive Defective Material Retention (CDMR) allows you to keep all data retentive components.

HPE GreenLake

HPE GreenLake edge-to-cloud platform is HPE's market-leading as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model, on premises, fully managed in a pay per use model.
